

Bibliography

Most of the books and articles listed below I have referred to directly in the Notes that accompany the text. However, I have added a selection of additional sources which I think will add to an understanding of *The Wisdom of the Wyrð* for those who would like to read more widely. Some of the references include substantial bibliographies which will serve as guides to further reading. Scholarship continues to add to our knowledge of this field, but some of the old sources make for more colourful and less technical reading, and I have included a selection of those not invalidated by recent research.

- Achterberg, J., *Woman as Healer*, Boston: Shambhala, 1990
